

THE VIDEO

Take out a piece of paper and be ready to write down answers to these questions as you watch the video.

1. List some of the variables that were taken on soldiers for the sizing data bank.
2. What was the overall shape of the distribution of soldiers' foot lengths? About where was the center of the distribution?
3. What variable was used to measure fuel economy on Toyota's line of vehicles?
4. Focus on the stemplot of fuel economy for Toyota's 2012 line. What new information became evident (or more clear) when the stem was expanded?
5. What was learned from back-to-back stemplots about the change in fuel economy in Toyota's vehicle line from 1984 to 2012?
