## Graph Using a Table of Values

Write the equation and graph each!

Complete the chart for each equation and graph. Charts may vary.

Example: $y=2 x$

| $x$ | $y$ |
| :---: | :---: |
| 2 | -4 |
| 0 | 0 |
| 2 | 4 |

3. $y+2 x=-2$

Example: $y=2 x$

| $x$ | $y$ |
| :---: | :---: |
| 2 | -4 |
| 0 | 0 |
| 2 | 4 |

1. $y=-3 x+6$

2. $2 y+6 x=5$

3. $y=x-2$

4. $y=\frac{1}{3} x+\frac{3}{2}$
