

LESSON
8.2**Practice C**

For use with the lesson "Multiply Polynomials"

Find the product.

- | | | |
|-----------------------------|-----------------------------|--------------------------------|
| 1. $-8y^3(2y^4 - 5y^2 + 3)$ | 2. $(b + 3)(3b^2 - 2b + 1)$ | 3. $(6w - 3)(4 - 3w)$ |
| 4. $(9m^3 + 1)(4m^2 - 1)$ | 5. $(2x^2 + 5x - 2)(x + 3)$ | 6. $(8n^2 - 1)(3n^2 - 4n + 5)$ |
| 7. $(3p^4 - 5)(2p^2 + 4)$ | 8. $(-8r^3 + 2)(6r^2 - 1)$ | 9. $(-5z^2 - 3)(-2z^2 + 9)$ |
| 10. $xy(x^2 + 2y)$ | 11. $-3x(2xy + 5y)$ | 12. $y^2(x^2y + y^2x)$ |
| 13. $(x - y)(5x + 6y)$ | 14. $(xy^2 + 70)(3x + 2y)$ | 15. $(x^2 - 4xy + y^2)(5xy)$ |

Simplify the expression.

16. $(7n + 1)(3n + 5) + (4n - 2)(3n + 1)$ 17. $5w^2(3w^3 - 2w + 1) + w^4(w^2 - 2w + 3)$

Write a polynomial for the area of the shaded region.

20. **Car Production** During the period 1995–2002, the number of cars C (in thousands) produced in the U.S. and the average price P (in dollars) spent on one of these cars can be modeled by

$$C = -198.02t + 6320.49 \text{ and } P = 1.67t^4 - 22.28t^3 + 44.84t^2 + 531.16t + 16,860$$

where t is the number of years since 1995.

- Write an equation that models the total amount spent (in thousands of dollars) on new cars in the U.S. by consumers as a function of the number of years since 1995.
- How much money was spent in the U.S. on new cars by consumers in 1995?

21. **Sporting Goods Equipment** During the period 1990–2002, the amount of money E (in millions of dollars) spent on sporting goods equipment in the U.S. and the percent P (in decimal form) of this amount that is spent on exercise equipment can be modeled by

$$E = -5.56t^4 + 149.93t^3 - 1314.65t^2 + 4396.75t + 14,439.09$$

$$\text{and } P = -0.00002t^4 - 0.0005t^3 + 0.0028t^2 + 0.001t + 0.126$$

where t is the number of years since 1990.

- Find the values of E and P for $t = 0$. What does the product $E \cdot P$ mean for $t = 0$ in the context of this problem?
- Write an equation that models the amount spent (in millions of dollars) on exercise equipment as a function of the number of years since 1990.
- How much money was spent in the U.S. on exercise equipment in 1990?
